

PLEASE SPONSOR MY
2010
BIRD-A-THON

Photo by Reinhard Geisler, Oviedo, FL

If you've never heard of a Bird-A-Thon before, think of it as a spell-a-thon where I count birds instead of words!

PRBO Conservation Science's 33rd Bird-A-Thon will take place from September 1st to October 15th. I'll choose a 24-hour period within that time to go birding—and identify as many bird species as I can. I am asking you to pledge a certain amount for each species I find, or to make a flat donation.

It may seem like a quirky way to raise funds, but during the past 32 years Bird-A-Thon has raised over \$2.2 million to protect birds and the environment!

Bird-a-Thon donations help PRBO reduce the negative impacts of environmental and land use change on birds and the ecosystems on which they depend. Your most generous gift translates directly into support for PRBO's urgently-needed conservation science and outreach programs.

Please support my Bird-A-Thon! Complete the other side of this card and return it to me or to PRBO at the address below.
