

[Geoffrey R. Geupel, Terrestrial Ecology Division Director](#) (415) 868-0655 ext. 301

Geoff has over 23 years of experience in ornithological monitoring and conservation research. Geoff has a B.S. in Biology from Lewis and Clark College and has authored over 30 publications, many of which have helped define bird-monitoring protocols throughout North America and Mexico. He has worked closely with private, state and federal agencies in California and other Western states to assess the impact of land management practices and restoration efforts on landbird populations. Geoff has taught numerous technical workshops on bird monitoring and conservation planning. He oversees 8 program areas including projects in The Great Valley, Eastern Sierra, Intermountain west shrub steppe, the Sierra Nevada, Latin America, and oak woodland and desert regions of California, that employ over 40 field biologists annually. He is currently co-Chair of California Partners in Flight, head of the Science Committee of the Riparian Habitat Joint Venture, member of the California State Steering Committee of the Intermountain West Joint Venture, technical committee member of the Central Valley Habitat Joint Venture, board member of the Sonora Joint Venture and member of the National Cowbird Advisory Council and International Important Bird Area Technical Committee. Geoff currently lives in Bolinas with his wife of 20 years Janet Kjelmlyr and his two daughters and is a director on the Mesa Park Board.
