Island Restoration
With Burr Heneman, Commonweal Ocean Policy Director

Islands are an important type of habitat, providing homes for unique flora and fauna and breeding grounds for many species of seabird. Due to their isolated nature their ecological community can be especially vulnerable to introduced and invasive species. Come learn more about island restoration and how we can help protect these unique and valuable ecosystems!

Thursday April 16, 2009
6:30pm – 8pm

PRBO’s SF Bay Research Center • 3820 Cypress Drive, #11 • Petaluma, CA

$5 suggested donation
as an honorarium for the speaker
