

WHAT TO DO IF YOU FIND AN OILED BIRD

- Please report live and dead oiled birds through **(415) 701-2311** or 311 if you are within SF city limits

Oiled Murre

- Ask for a search and collection team to come to the area. (Teams are going out frequently.)

- Please keep your dogs leashed on the beach.

*Please DO NOT collect oiled wildlife. The oil is toxic to handle. Collecting live birds without training can cause more harm than help and compromise their condition.

PRBO biologists are currently conducting surveys and collecting birds on West Marin beaches to accurately report and document oiled birds
